MR.SCHUETZ&THE PARADOX STRANGERS IN MY MIND

I don't know where to file this record, it won't fit in any stylistic drawer. but what is certain: it is music originating from the paradoxical, dark, strange and friendly inland empire of the subconscious. its sound is painted in the colours of dark glowing shades of blue. and its words are coming from great poets like fernando pessoa, william shakespeare and others. put on your headphones, turn up your stereo and dive deep into these sounds. I'm quite certain that this music will be able to take you on a trip to your own inland empire.

martin schütz: el. & ac.cello & vocals
beni06 weber: farfisa & drums
andi marti: trombone
